

Fan Wobbling?

<p>01</p>	<p>We recommend the use of D-type hooks. If any other type of hook is in use, then ensure that down-rod must not have any movement while the fan is running.</p>	
<p>02</p>	<p>Ensure that the blade(s) or the motor of the fan aren't damaged or bent in any way.</p>	
<p>03</p>	<p>Ensure that the blade screws are properly tightened.</p>	
<p>04</p>	<p>Ensure that the down-rod and the nut + bolt used is the one provided by SINOX POWER.</p>
