BLDC CEILING FAN

IS 374

CM/L- 7600192113

www.sinoxpower.com

We all know that if we save energy today then tomorrow energy will save us. On the basis of this concept, we developed BLDC Fan which saves upto 65 % on your electricity consumption. We have a wide range of models to suit your home, schools, offices, hospitals and industrial plants etc and the same can be operated either by the regulator or by smart remote control.

ABOUT BLDC TECHNOLOGY

BLDC stands for Brushless Direct Current. BLDC motor has no mechanical brush for commutation of the windings. Commutation is deployed with the help of smart electronics. The input voltage provided is 230V AC which is converted to 24V DC by a SMPS. The fan runs internally at 24V and consumes just 32W at full speed.

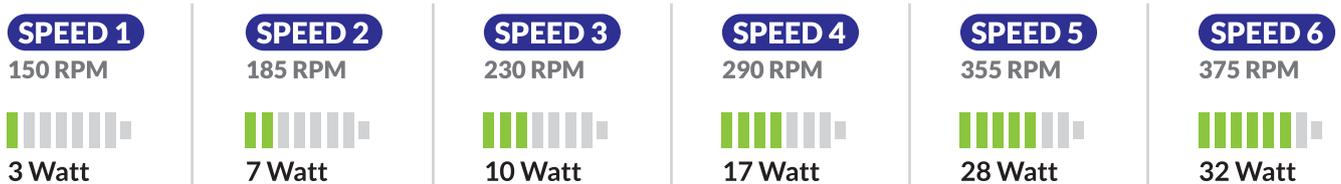

ADVANTAGES

- Consistent performance even at low voltage and power fluctuation.
- Multiple speed control gives flexibility.
- No humming noise even at low speed.

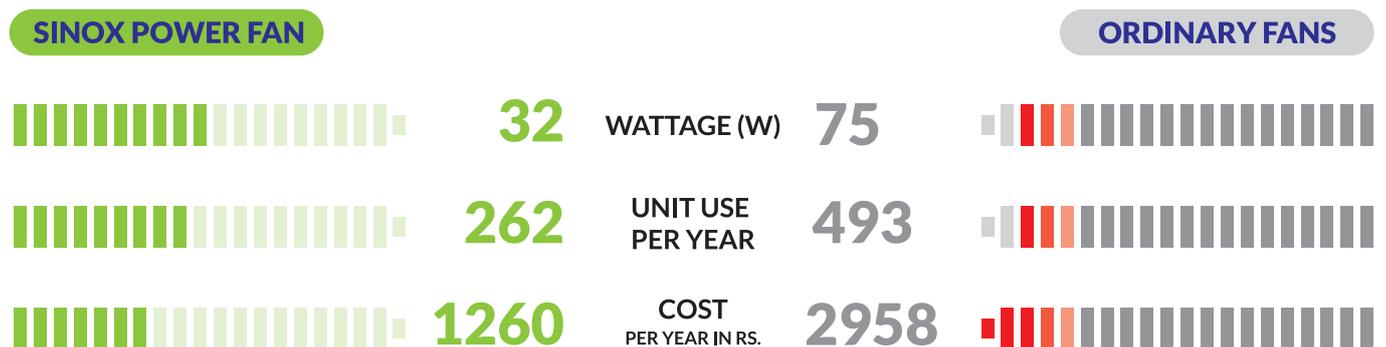

POWER CONSUMPTION AT DIFFERENT SPEED

The power consumption of the Sinox Power fan varies with the speed at which it is set.

FEATURES THAT MAKE US SMART

Our BLDC Fan comes with a lot of features that make us smart. Smart Ceiling Fans are advanced, with a robust build and exotic design, but have a low energy demand - making them the best Smart Fans. Our fan is equipped with a Smart Fan Intelligent Controller that works via remote control.

WHO WE ARE ?

Sinox Power is one of the leading manufacturers of energy efficient BLDC ceiling fans and solar products based in Rajkot (Gujarat) India. We offer wide range of energy efficient products which includes energy efficient BLDC ceiling fans, solar BLDC ceiling fans, BLDC motors BLDC solar pump and solar home lighting systems etc.

Since the dawn of human civilization, man has harnessed power of the Sun for all his needs. The mighty Sun has continually dawned inspiring ideas throughout human history. Solar energy is radiated energy from the Sun in the form of heat and light. It steers the climate and weather and support all life on Earth.

FEEL Relaxed | When your *Comfort* is in your **Hand**.

FOR 230V AC, HYBRID FAN & 12V / 24V FAN

1. Turn On/Off Fan
2. Turn On/Off LED Light (0.5 W)
3. Speed Switches 1 to 6
4. Reverse Rotation For Hot And Cold Air Circulation
5. On Speed 6 (32 Watt, 375 RPM)
6. Timer Mode, Turn Off Fan After 2, 4, 6, & 8 Hour
7. In Smart Mode Automatically Reduces Speed Off Fan Up to 12 Hour From Fast To Low

INTRODUCING **FIRST TIME** IN INDIA

TRUE INVERTER BLDC FAN

We are very excited to announce that we are the first time in India introducing a true inverter BLDC fan with a lithium iron battery. That will give you maximum 3-4 hours of battery backup at high speed. It can give consistent performance even at low wattage and power fluctuation.

Maximum Battery Backup
10 Hours At Low Speed

2.5 Hours Of Charging
Time

55 Watt With Battery
Charging

Powder Coated Aluminium Die
Cast Body & Leaves - No Rust

32 Watt Only With High Efficiency
BlDC Motors

Lithium Iron Battery With 300
Life Cycle.

Consistent Performance Even At Low
Wattage And Power Fluctuation

Smart Algorithms Implemented To
Precisely Tune The Motor In Real Time

Available Placement of
Lithium Iron Battery

COMPLETE SELECTION & INSTALLATION GUIDE

Linear Room Layout

For rectangular rooms where airflow needs to move along one axis.

Ensure the fan is centered.

Avoid placing fans directly above tall furniture.

Maintain equal spacing if using multiple fans.

Non-Linear / L-Shaped Layout

For divided spaces where airflow is blocked by corners.

Avoid aligning fans with AC vents or exhaust fans.

Avoid placing fans near corners.

Select fan models with wider air-throw angles to improve coverage.

RECOMMENDED SWEEP SIZE CHART

SWEEP SIZE	ROOM DIMENSIONS	IDEAL ROOM TYPE
600 mm	Up to 1.8 m × 1.8 m	Utility, Small Balcony Room
900 mm	2.5 m × 2.5 m	Small Bedroom, Study
1050 mm	3 m × 3 m	Guest Room, Kids Room, kitchen
1200 mm	3.5 m × 4 m	Master Bedroom, Living Room
1400 mm	4 m × 4.8 m	Halls, Workspace, Commercial Area

INDUSTRIAL HVLS FANS

APPLICATIONS OF HVLS FANS

SP-HVLS Series are available in five sizes ranging from 8ft- 24ft equipped with PMSM motor. It is a perfect solution to ventilation & cooling in large places, such as factory workshop, warehouse, church, commercial buildings, supermarkets, library, lobbies, barn, etc. It brings gentle breeze at low rotational speed.

WHY SINOX HVLS?

-  **LARGE COVERAGE**
-  **EASY INSTALLATION**
-  **ENERGY SAVING**
-  **ULTRA-QUIET OPERATION**
-  **QUICK RESPONSE**
-  **HUMAN-BODY COOLING**
-  **GENTLE BREEZE**
-  **LONGER FAN LIFESPAN**
