**FAN BADLO,  
BILL BADLO**

**BLDC** CEILING FAN

[www.sinoxpower.com](http://www.sinoxpower.com)

We all know that if we save energy today then tomorrow energy will save us. On the basis of this concept, we developed BLDC Fan which saves upto 65 % on your electricity consumption. We have a wide range of models to suit your home, schools, offices, hospitals and industrial plants etc and the same can be operated either by the regulator or by smart remote control.

## ABOUT BLDC TECHNOLOGY

BLDC stands for Brushless Direct Current. BLDC motor has no mechanical brush for commutation of the windings. Commutation is deployed with the help of smart electronics. The input voltage provided is 230V AC which is converted to 24V DC by a SMPS. The fan runs internally at 24V and consumes just 32W at full speed.

## ADVANTAGES

- Consistent performance even at low voltage and power fluctuation.
- Multiple speed control gives flexibility.
- No humming noise even at low speed.

## POWER CONSUMPTION AT DIFFERENT SPEED

The power consumption of the Sinox Power fan varies with the speed at which it is set.

## COMPARE WITH ORDINARY FAN

## FEATURES THAT MAKE US SMART

Our BLDC Fan comes with a lot of features that make us smart. Smart Ceiling Fans are advanced, with a robust build and exotic design, but have a low energy demand - making them the best Smart Fans. Our fan is equipped with a Smart Fan Intelligent Controller that works via remote control.

## WHO WE ARE ?

Sinox Power is one of the leading manufacturers of energy efficient BLDC ceiling fans and solar products based in Rajkot (Gujarat) India. We offer wide range of energy efficient products which includes energy efficient BLDC ceiling fans, solar BLDC ceiling fans, BLDC motors BLDC solar pump and solar home lighting systems etc.

Since the dawn of human civilization, man has harnessed power of the Sun for all his needs. The mighty Sun has continually dawned inspiring ideas throughout human history. Solar energy is radiated energy from the Sun in the form of heat and light. It steers the climate and weather and support all life on Earth.

*FEEL Relaxed* | When your *Comfort* is in your **Hand**.

## FOR 230V AC, HYBRID FAN & 12V / 24V FAN

1. Turn On/Off Fan
2. Turn On/Off LED Light (0.5 W)
3. Speed Switches 1 to 6
4. Reverse Rotation For Hot And Cold Air Circulation
5. On Speed 6 (32 Watt, 375 RPM)
6. Timer Mode, Turn Off Fan After 2, 4, 6, & 8 Hour
7. In Smart Mode Automatically Reduces Speed Off Fan Up to 12 Hour From Fast To Low

# INTRODUCING **FIRST TIME** IN INDIA

## TRUE INVERTER BLDC FAN

We are very excited to announce that we are the first time in India introducing a true inverter BLDC fan with a lithium iron battery. That will give you 3 to 4 hours of battery backup. It can give consistent performance even at low wattage and power fluctuation.

3 to 4 Hours of battery backup

8 to 10 hours of charging time

55 watt with battery charging

Powder coated Aluminium die cast body & leaves – No rust

32 watt only with high efficiency BLDC motors

lithium iron battery with 300 life cycle.

Consistent performance even at low WATTAGE and power fluctuation

Smart algorithms implemented to precisely tune the motor in real time

Available Placement of  
Lithium Iron Battery

Register on  
our website to get extra  
**1 Year Warranty**

Available With Smart Remote Control
